

USING A NUMBER LINE OR CHART

We can use tools like number lines and hundreds charts to help us add and subtract.

ADDITION

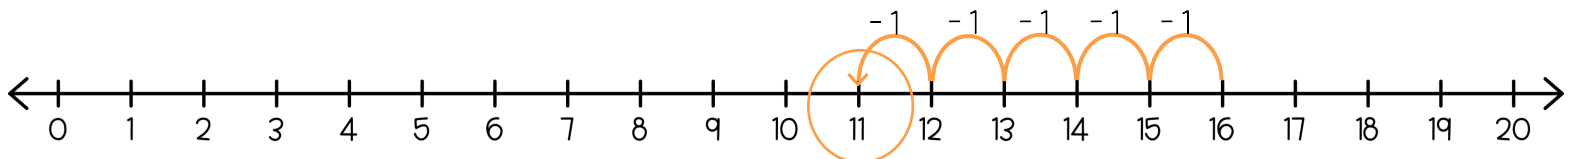

$$9 + 4 =$$

When adding on a number line, start on the first addend and draw hops to represent the second addend.

SUBTRACTION

$$16 - 5 =$$

When adding on a number line, start on the larger number and draw hops backwards to represent the smaller number.

ON A CHART

$$19 - 6 =$$

The same can be done on a 100 or 120 chart.

Start at the first number and move forward or backward to represent the second number!
